Controls Engineer

Description

FIVES DTS is looking to hire a Controls Engineer for opportunities with a construction engineering company in Toledo, OH.

Responsibilities

- Works from both own designs and designs of others, compiles data, performs design computations, makes quantity take-offs, and assists in preparation of cost estimates
- Drafts interpretation of own design into completed working drawings and applies design fundamentals
- Develops project details, prepares selections and adapts to alternatives
- Maintains working knowledge of the discipline's codes and studies non-routine code issues
- Performs production of construction documents
- Performs routine design calculations for the review of the project engineer/architect and prepares basic layouts
- Has occasional external customer contact
- Participates in continuing education and training to develop and apply innovative ideas and keep abreast of state of the art technology (e.g. evaluate and learn new software packages)
- May direct the drafting effort, within own discipline and coordinate work effort with other disciplines
- May research equipment selection or materials and provide information to project engineer/architect for specifications

Qualifications

- OSHA 10/30 hour Construction Certificate preferred
- Incumbent must be OSHA Construction Certified
- Electrical engineering degree from an accredited institution required
- 5+ years experience in electrical controls
- Experience in PLC programming, ideally in the food and consumer product industry
- AutoCAD experience required
- Revit a plus but not required
- Strong communications and ability to solve complex problems
- Ability to travel internationally required

Education

- Bachelors degree in related field preferred

Job Benefits

Hired employees will receive great benefits along with an extremely competitive compensation package. Benefits will include health, dental, life, short-term & long-term disability insurance paid by the company. Other perks include optional vision insurance, a 401K with a company match, tuition reimbursement options, a competitive bonus program, paid time off for vacation and sick days, and more...
