Structural Engineer

Description

FIVES DTS is looking to hire a Structural Engineer for opportunities with a construction engineering company in Atlanta, GA.

Responsibilities

- Travel 10%, usually within a few hours of the office, throughout the mid-west but could potentially travel nation-wide
- Understanding fundamentals of live/dead/wind/ice loads, load combinations, codes, and how they are applied
- Responsible for the design and documentation for civil/structural engineering projects
- Participate in field survey and construction administration in evaluating project sites
- Draft/Design utilizing AutoCAD
- Review, research, and apply construction and engineering codes, standards, and building construction requirements per local, state, and federal regulation

Qualifications

- 3D modeling experience highly preferred in RISA 3D, STAAD, etc.
 - Tower analysis experience a plus
- Must have professional project experience in steel, concrete, foundations, and Geotech
- AutoCAD experience required
- Bluebeam experience highly preferred

Education

- Bachelor's degree in Civil Engineering or Civil Engineering Technology required
 - Would consider Bachelor's degree in Mechanical or Electrical Engineering

Job Benefits

Hired employees will receive great benefits along with an extremely competitive compensation package. Benefits will include health, dental, life, and short-term & long-term disability. Other perks include vision insurance, a 401K with company match, paid time off for vacation and sick days, and more.
